

Breast Form, Shaper and Post Surgical Collection

1042

Triangle Lightweight

Features the standard triangle shape which is suitable for multiple surgical sites and fits easily into a variety of bra cups. Available in blush and tawny.

11202

Apex Shaper Round

Features a round shape that fills out the apex of a natural breast. The finely tapered edges and seamless transition prevents shifting in the bra cup. This product can work especially well on a reconstructed breast.

914

Post-Surgical Kit

Kit contents include one ABC Leisure Bra in white (Style 110), one Triangle Puff Form (Style 910) and two Velcro attachable drain pouches (Style 922).

1032

Oval Lightweight

Features the oval shape which can be positioned in the bra cup to provide fullness where needed. Crafted with Lightweight silicone which is about 30% lighter than Standard silicone.

11201

Modified Triangle Shaper

Features a modified triangle-shaped footprint with full coverage in the bra cup. Ideal for enhancement and balancing needs. Thickness is concentrated at the apex and a unique anatomical-curve design allows for a close, natural fit.

119

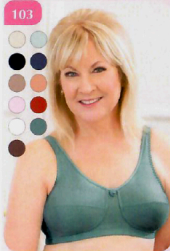

Velcro-Front Compression Bra

Ideal for use after a mastectomy, breast reduction, breast augmentation, or reconstruction. Designed to stabilize the breast tissue, this compression bra helps reduce any swelling that may occur after surgery.
